DETAILED ACTION

1. This action is in response to applicant's amendment received on 07/18/06.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-7, 13, 14 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Tseng et al. (6,298,558 B1).

Tseng et al. discloses (Fig. 1-11) the invention including:

- Claims 1 and 21; a first layer 70 having a first thermal expansion coefficient and a second layer 72 having a first thermal expansion coefficient. The first layer defining a first side that is generally in contact with the surface being shaved (the second layer 72 includes openings to allow the first side of the first/shaving layer to contact the skin, see col. 4, lines 4-7).
- Claims 2 and 3; a shaving aid/soap (see col. 4, line 31).
- Claim 4; the second layer is more rigid than the first layer (see col. 6, lines 29-31).
- Claim 5; the strip is secured to a head portion (see Fig. 3).
- Claim 6; the strip is secured to a cartridge (see Fig. 1-2).
- Claim 7; an adhesive (see col. 3, lines 37-38).

Art Unit: 3724

- Claim 13; first and second layers are coextruded (see col. 2, line 48).
- Claim 14, first and second layers having contrasting colorations (see col. 2, line 48).

Response to Arguments

4. Applicant's arguments have been fully considered but they are not persuasive. Applicant argues that Tseng et al. does not show the first layer defining a first side that is generally in contact with the surface being shaved. However, Tseng et al. does show the second layer 72 includes openings to allow the first side of the first/shaving layer to contact the skin see col. 4, lines 4-7.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
